CHARLES L. WINEK, Ph.D.
CHIEF TOXICOLOGIST

14 Mar 96

Dear Harold,

Thanks for your prompt follow through in response to my recent letter. It is most gracious of you to be willing to meet with Hedgecock. It will be interesting to learn what you think of his theory.

I hope all goes well with your wife's hip replacement. After her recovery, she should benefit greatly in her ambulation. You will need some assistance at the house for awhile.

Sorry you have no current prospects of publication for your continuing research. Perhaps interest will be renewed approaching the 35th anniversary in 1998.

Take care of yourself and stay as stabilized as possible.

With kind regards and best wishes! Cyril
